

KLINGER TOPLINE K54H PTFE Yarn With Oil Lubricant

A PTFE yarn packing for valve applications requiring a pure, product with a high degree of resistance to chemical attack and improved performance within dynamic applications.

Klinger TopLine packing range has been selected to provide users with gland sealing products that meet today's demanding services, offering effective and trouble-free sealing during application. To achieve this goal we have selected the best materials and the best production methods.

GENERAL PROPERTIES

- » Virtually resistant to all media including strong acids and alkalis.
- » K54H is manufactured from PTFE filaments to which we incorporated a mineral based lubricant that provides improved performance within dynamic applications.
- Klingerlock braiding process ensures a firm but flexible product of consistent density
- » Most glands packed with K54H need little adjustment after initial installation.
- » Due to its resilience and versatility standardising on K54H can reduce stock holding and maintenance requirements.
